Tech Skills

I have been studying these tools in a self-taught way in parallel with my current job. I look for an opportunity delve into them and/or learn other to involve myself with a team under proper leadership.

★★★★★☆☆☆☆☆

- I know how to create a project with "npx create-react-app";
- Use the il8n framework to create a multi language project;
- Understand and customize other projects for the purpose of my current project;
- Configure and use the comand "npm run dev" to start the server;

★★★★★☆☆☆☆☆

- I know how to install via npm or yarn;
- Use the CLI for basic activities like creating components and starting the server;
- Identify and customize html, style and script files;

★★★★★☆☆☆☆☆

- I know how to create a project in React or Angular with "npm/yarn create vite@latest";
- Create and configure the vite.config.js file;
- Install packages from package.json with "npm/yarn i";

★★★★★☆☆☆☆☆

- I know how to install via npm or yarn;
- Configure the tailwind.config.cjs file;
- Styling fonts and colors;
- Create and position the elements according to the project;

★★★★★☆☆☆☆☆

- I know how to store and use variables;
- Create and reuse CSS with Mixins;
- Use @if and @else to add logic to styles;
- Split style files into smaller files;

★★★★★☆☆☆☆☆

- I know how to import .css and .js files into a project;
- I understand the concept of "Container" and the "Grid System" needed to position the elements;
- I can use the elements in a project based on the documentation;

★★★★★☆☆☆☆☆

- Know how to install or use online at <https://vscode.dev/>;
- I can add plugins and use basic hotkeys;
- Create an initial project or open a directory of an existing project;
- Open a Bash terminal to use CLIs;

★★★★★☆☆☆☆☆

- I know how to install, use the CLI and start a repository with the "git init" command;
- Add the repository changes with the command "git add" and "git commit";
- Link a local repository to an online GitHub or GitLab repository with "git remote origin";

★★★★★☆☆☆☆☆

- I understand the concept of scope for declaring and using functions and variables;
- I know how to research and adapt code snippets for the purpose of my current project;
- I can add @types from frameworks or libraries with npm or yarn;
- Use basic typings

Professional Experiences

Previous Professional Experiences (2019-2008) available at:

<https://www.linkedin.com/in/den7ee/>

Kitchen helper in CoolaBoola - Coimbra Portugal

October 2022 to present

I work with the presentation and preparation of snacks, do customer service at the table in English, and sometimes make designs for Facebook and help to maintain the web site.

Tattooist in Dente Tattoo - Caragatatuba Brazil

June 2020 to October 2022

I opened a private studio and worked with on scheduled tattoos, in the same period I worked making illustrations and designs for posts, logos, branding and business cards as Freelancer.

Soft Skills

- Ease of learning, communication and recognizing my own mistakes;
- Ability to work in a team and solve problems under pressure;
- Creative, entrepreneur mindset and not afraid of new beginnings;
- Focused on customer experience and simplicity;
